How AI Affects THE WORLD

WE ASKED BOT:
"How do you think you (and other chatbots) will affect the world?"

≫ *"(AI technologies will) "automate tasks, increase productivity, and enable more efficient decision-making processes."*

A Health Care Positive!
"Artificial intelligence can assist providers...in healthcare for disease diagnosis, drug discovery, and patient risk identification." (Vadapalli, 2022)

A Research Concern!
"Researchers predict that generative technology could make disinformation cheaper and easier to produce..."(Hsu, 2023)

Neuroscience
Neuralink, an AI startup co-founded by Elon Musk, developed a chip which can be transplanted into the brain.

Astronomy
AI can track asteroids in space!

Did you know?
AI does not identify political material, spam, deception, or malware.

Did you know?
AI-powered risk modeling may be used to demonstrate environmental trends to help address the climate crisis.
